Subject: Microsoft Settlement

I am writing to share with you that I am in total support of the Department of Justice and Microsoft on the proposed settlement that was reached recently. The US economy depends on firms like Microsoft for the innovation necessary to keep the US ahead of the rest of the world. As we realized after September 11, America has bigger fish to fry and the DOJ needs to pursue more eminent targets than Microsoft. Microsoft is a good company that produces great products that people love and cannot live without. Let them keep their innovation and creativity and encourage their competitors to do the same rather than use the justice system to weaken Microsoft.

I sincerely hope that you will resolve the issues with Microsoft and that you will finalize the settlement sooner than later. The new administration is already doing some great things that I believe will be remembered in history as the one of the best administrations to govern America. Keep it up and get on with more important issues.

Thanks for reading this.
